 - - Pharmaceutical industry, optics, fine mechanic industry, in labs, hospitals, and nursing homes

Profix Multi Wipes

<http://www.medguard.ie/profix-multi.html>

- Main Fields of Application:
 - - Wipe or wash cloth for patient care in hospitals and nursing homes.
 - - Cleaning in labs, pharmaceutical industry, in dentist's surgeries (for example as a pad for medical equipment), in hospitals for cleaning of sonographic devices, in public offices, in fine mechanic plants, food industry
 - - Suitable for direct food contact (ISEGA-certificate)

Cleaning Wipes

Profix 4 Colour Cloths

<http://www.medguard.ie/profix-4-colour-cloths.html>

- Main Fields of Application:
 - - Multi-purpose wipe for cleaning and wiping of all areas (colour coding!) in canteen kitchens and cafeterias, in hotels, hospitals, in nursing homes, in public offices and food industry

Profix Super Wipes / Sheets

<http://www.medguard.ie/super-airlaid-wipes-sheets.html>

- Main Fields of Application:
- - Fast and complete absorption of liquids and cleaning of surfaces
- - In hospitals as soft and tear-resistant wipe for patient care or cleaning
- - In production plants for absorption of oil, grease and lubricants, for cleaning of machines and work surfaces (even glass)
- - In food industry, canteen kitchens and cafeterias for surface cleaning, absorption of cooking oil, other liquids, etc

Profix Venet Plus Wipes

- Main Fields of Application:
- - Useable as cleaning and disinfection wipe for smooth and sensitive surfaces
- - In automotive, in canteen kitchens, cafeterias, hospitals, nursing homes, engineering, injection moulding, and workshops
- - Also especially suitable in paint shops (wiping and polishing, preparation and finishing)

Profix Tiger Wipes

<http://www.medguard.ie/profix-tiger-wipes.html>

- Main Fields of Application:
- - For fast absorption of larger amounts of liquid and for cleaning respectively drying of sensitive surfaces like glass, ceramics or stainless steel
- - For industry and production plants, print industry, chemical industry, workshops, handicraft businesses, pharmaceutical industry, glass industry, food industry and patient care

Profix Venet Blue

<http://www.medguard.ie/profix-venet-blue.html>

- Main Fields of Application:
- - As multi-purpose wipe in canteen kitchens, cafeterias, hospitals and nursing homes and food industry
- - Useable as cleaning and disinfection wipe for smooth and sensitive surfaces in paint shops, automotive and furniture industry, in engineering, in injection moulding, glass industry and in workshops
- - Especially suitable in paint shops (wiping and polishing, preparation and finishing)

Low Linting Wipes

Profix Escon Wipes

<http://www.medguard.ie/profix-escon-wipes.html>

- Main Fields of Application:
 - - Multi-purpose-wipe for highest demands on low-linting and tear-resistance
 - - In pharmaceutical industry and medical engineering
 - - Fine mechanic industry
 - - Universal-use-wipe for labs
 - - As degreasing wipe in automotive and paintshop area
 - - In aircraft manufacturing. In workshops, production plants, engineering and transmission manufacturing
 - - In printing industry for cleaning of press cylinders

Profix Vispo Light

<http://www.medguard.ie/profix-vispo-light.html>

- Main Fields of Application:
 - - Ideal as soft polishing wipe for sensitive surfaces and materials and as soft patient care wipe in medical areas
 - - Pharmaceutical industry, optics, fine mechanic industry, in labs, hospitals, and nursing homes

Ultra Sound Gel Wipes

TEMDEX® Tissue-health care wipes

<http://www.medguard.ie/health-care-wipes.html>

- Wherever liquids must be absorbed fast and safely health care wipes are being used
- Suitable for removal of ultrasonic gel, cleaning of patients or wiping
- Due to the surface structure of the wipes all dirt particles are safely absorbed
- Highly absorptive tissue fibres ensure the rapid absorption of liquids
- Despite their efficiency the towels are very soft and skin-friendly

Disposable Bedding

TEMDEX® Bed Sheets

<http://www.medguard.ie/temdex-cellulose-bed-protection-sheets.html>

- Provides reliable protection of hospital beds and stretchers.
- Highly absorbent cellulose plies prevent wetting of mattresses and bed linen

- They are used as an additional device in the treatment of incontinence, but also after surgery, as protective cover or wheelchairs and chair overlays
- The bed sheets are also suitable for bed-ridden patients, since they provide a very good feeling, do not disturb or cause bruising.
- Due to the soft fleece coating on top, the bed sheets are very comfortable in direct skin contact
- The highly absorbent core seals liquids
- safely.
- The breathable bottom film prevents sheets from soaking

Disposable Pillows

<http://www.medguard.ie/disposable-pillows-50.html>

- Each pillow are individually sealed in polybags due to hygienical reasons
- Suitable for single use and therefore are not washable.
- Size: 40 x 40cm
- Disposable Pillow with soft non-woven polypropylene cover and polyester wadding
- Ideal for use in emergency aid, medical centres, health care and tourism

Disposable Blankets

<http://www.medguard.ie/disposable-blankets.html>

- Suitable for use in emergency aid, medical areas, in health care or in tourism – the practical disposable blankets are universally applicable.
- Just select your preferred cover
- All white blankets are made of a breathable, a soft fleece cover and a multilayer pulp core
- The blue disposable blankets are filled with warming, re-used wool, which is surrounded by soft nonwoven polypropylene
- To increase the endurance of the blankets, they are seam sewed on all sides
- Blankets are individually and hygienically sealed in polybag
- Suitable for single use and therefore are not washable

Dispensers

Temdex Mobile Hand Disinfectant Stand

- Mobile hand disinfectant stand for use in highly frequented areas
- The shapely and expedient disinfection stand is suitable for mobile use
