

Simulate & Be Ready

Ensure that your team are equipped with the care & nursing skills needed to provide the best in patient care

TERi Androgynous Geriatric Trainer

Ideal for care settings and hospital environments where patient training is essential

The TERi Geriatric Training manikin is a comprehensive male/female elderly patient care trainer for medical simulation.

With it's realistic look and feel, the manikin accurately represents the human anatomy, even the weight is distributed to represent a real patient for lifting and carrying.

▶ LF04300 - Geriatric Patient Care Trainer
