

## Agrippa

The Wireless, Digital Door Holder that learns the Sound of your Fire Alarm

- The simple solution for legally holding open fire doors in buildings where easy access is essential
- Digital technology 'learns' the sound of the fire alarm and releases the door in the event of a fire
- Installed in minutes
- Supplied with 2 x C batteries lasting 12 months
- Programmable for timed daily releases
- Approved to EN1155 and CE marked under the CPR
